VIGNESH S

AI Designer | AI/ML Engineer | Creative Visual Content Creator

Chennai |+91 6374490902 | vigneshvasan21@gmail.com

LinkedIn: linkedin.com/in/vignesh-vasan | Portfolio :https://portfolio-ai-designer-v2.vercel.app/

PROFESSIONAL SUMMARY

Creative and technically skilled AI & Data Science graduate with a strong interest in AI-powered visual design, image generation, and creative content development. Experienced in leveraging AI tools, machine learning concepts, and digital technologies to develop engaging visual content, product concepts, and brand creatives. Passionate about combining artificial intelligence with creative thinking to produce innovative designs and impactful visual storytelling. Seeking to contribute to SILAII as an AI Designer.

EDUCATION :

B.Tech – Artificial Intelligence & Data Science

Er. Perumal Manimekalai College of Engineering | **CGPA: 9.4/10 (94%) | 2022–2026**

HSC – 80%

Agasthiya Vidyalaya Matric Hr. Sec. School

TECHNICAL SKILLS :

Cloud Platforms: AWS (EC2, IAM, S3, Lambda, RDS, CloudWatch), Azure Basics,Cloud formation ,Terraform

DevOps & Automation: Git, GitHub, Jenkins, Docker, CI/CD Pipelines

Programming: Python , SQL, Linux, Bash

Databases: MySQL, DynamoDB, RDS ,Aurora , PostGRE SQL

Monitoring & Security: CloudWatch, IAM Roles & Policies, MFA

Tools: VS Code, Cloud Shell

CORE SKILLS :

- AI Image Generation & Prompt Engineering
- Creative Design & Visual Content Creation
- AI-Powered Product Visualization
- Brand Identity & Social Media Creatives
- Visual Storytelling & Concept Development
- Digital Marketing Creatives
- Generative AI Tools
- Image Editing & Design Enhancement
- Machine Learning & Artificial Intelligence
- Creative Problem Solving

PROFESSIONAL EXPERIENCE :

AI-Powered Visual Content Creation

VETRIO GLOBAL | Personal Brand & Ecommerce Initiative

- Created AI-assisted visual concepts and promotional creatives for an emerging ecommerce brand.
- Explored AI-generated visuals for product presentation, brand identity, and social media marketing.
- Developed creative content ideas and visual storytelling concepts to communicate brand messages.

KEY PROJECTS :

AI-Powered Indian Sign Language Detection System

Academic Project

- Developed an AI-based system to recognize and interpret Indian Sign Language gestures.
- Applied computer vision and machine learning techniques for gesture recognition.
- Worked on translating technical AI concepts into a practical, user-focused application.

AI/ML-Based Visual Recognition Projects

Academic & Technical Experience

- Worked with machine learning and deep learning methodologies for image-based recognition and classification.
- Developed an understanding of image processing, feature extraction, and AI-based visual analysis.
- Applied Python and relevant ML libraries to build intelligent applications

ACHIEVEMENTS & LEADERSHIP:

- Department Topper (7 Times) in B.Tech Artificial Intelligence & Data Science
- Graduated with CGPA: 9.4/10 (94%)
- Organized 2 National Conferences and 2 Technical Symposiums, coordinating technical events, student participation, and event execution
- Trained 1000+ students through Cloud & AI workshops at Studix Solutions
- AWS Certified Cloud Practitioner (CLF-C02)

PROFESSIONAL OBJECTIVE : :

To contribute as an AI Designer at SILAII by combining my Artificial Intelligence and Data Science background with generative AI, creative design, and visual storytelling skills to develop innovative visuals, product concepts, and impactful brand campaigns.
